The Hidden Valley Mine was reclaimed in 1986 and has no MSHA ID Number assigned. Physical mining consisted of facing up two (2) mine benches and the mining of exploratory adits of approximately 100 feet. These adits were backfilled and the highwalls graded and seeded in 1986. In 1997, the highwall of the "B" seam adit was re-affected to reconfigure the slope and reseeded with a 1997 amendment.

During 2008 the Minor Exploratory Permit approved in 2006 was revised to allow the three (3) exploration holes drilled in 2006 & 2007 to remain open until December 31, 2009. The revision allows the holes to remain open until they are either permitted under a groundwater monitoring program under Hidden Valley mining permit or completely grouted.
